

EXAMINER INTERVIEW SUMMARY

Applicants would like to thank the Examiner for the courtesy of the telephonic examiner interview on January 13, 2009. During the examiner interview, the Examiner and Applicants' representative, Albert W. Vredevelde, discussed potential amendments to the claims. The potential amendments related to the proposed Examiner's amendment in U.S. Patent Application No. 10/898,656. The Examiner and Applicants' representative did not reach an agreement regarding whether the potential amendments would ensure allowance of the current application.
